The world of photography is enriched with a new creative initiative, Photo Basel. This international art fair is solely dedicated to photography and takes place at Ackermannshof, Switzerland. Kahmann Gallery has the privilege to be part of the first edition of Photo Basel, which will take place during the international art show of modern and contemporary works, Art Basel Week. Kahmann Gallery is excited for its first (international) collaboration with one of our newest photographers, Jeroen Hofman. Kahmann Gallery is looking forward to take part in this interesting new event this summer !
